The Turkish market plays a pivotal role in global manufacturing, offering a vast array of parts, equipment, and services. Notably, Turkey stands as the third-largest foundry market in Europe.

Turkish foundry professionals play a significant role in supplying manufacturing solutions to global sectors such as automotive, aerospace, and original equipment manufacturers (OEMs). Additionally, they produce high-end metal components for domestic car brand initiatives, governmental projects, defense industry assets, and more.

With over 1,000 foundries specializing in various casting techniques - including pig iron, ductile iron (sfero), steel, centrifugal, and Ni-Hard casting- OEMs and other industry stakeholders will find an extensive network of suppliers at Foundry Expo 2025. This event presents an unparalleled opportunity to connect with leading professionals and explore the latest advancements in the foundry sector.

## WHY EXHIBIT?

Foundry Expo 2025 is set to be a premier event in Istanbul, strategically located at the heart of the global manufacturing industry.

International casting plants, forgeries and engineering companies will showcase their cutting-edge solutions, latest products and services at Foundry Expo Istanbul.

Foundry Expo is a sole trade exhibition for iron, casting and forging industry, dedicated to improve the industry through creating a focused commercial platform. The heart of the show will be the exclusive match-making activity, Match2Business, where buyers and suppliers will meet one-on-one in an enclosed business lounge.

By doing intense global marketing collaborations Foundry Expo will host global OEMs and manufacturers' purchasing units as VIP guests at the show. Buyers and suppliers will come together in a private business area, directly matching one another throughout the exhibition.

By April 2025, already with more than 50 exhibitors, Foundry Expo continues marketing and sales activities in different countries.

Do not miss this exclusive opportunity to spare your place and take your business a step further.
